Waco-Based Classic Country TV Builds on KWTX Feature With George Jones Archive, Landmark Country History, and First Merch Drop

Independent Central Texas project expands its free, member-supported library of classic and outlaw country stories

WACO, TEXAS — NOVEMBER 19, 2026 — Classic Country TV (CCTV), an independent Central Texas media project devoted to the stories behind classic and outlaw country music, today announced a new run of releases following its September feature on KWTX News 10. Among them are *The Outlaw Archive, Vol. VII — George Jones: The Grand Tour*, a long-form history of the genre, and the first drop of its Charter Collection merchandise line.

On Monday, September 28, KWTX's segment "Saving the Soundtrack: A Race to Preserve Music History" profiled CCTV as a local effort to keep country music's history in front of new audiences. Since then the project has kept publishing across YouTube, TikTok, Facebook, X and its online Journal, all under the banner *"Classic Country. No Apologies."*

THE OUTLAW ARCHIVE, VOL. VII: GEORGE JONES

Released today, Volume VII is a 36-page digital magazine on the man many country singers call the greatest voice the genre produced. It has two parts:

- **The Possum 50**, a tiered ranking of fifty George Jones records from his 1955 breakthrough "Why Baby Why" to his Grammy-winning "Choices," with the Billboard country peak listed for each.
- **Seven Archive Exclusives**, deep-dive stories covering his East Texas beginnings, the famous lawnmower ride, his marriage and duets with Tammy Wynette, the "No Show Jones" years, the making of "He Stopped Loving Her Today," and his comeback.

The volume labels every factual passage **DOCUMENTED**, **CLAIMED** or **UNRESOLVED**, so readers can tell what the record supports from what has only been retold. Jones gave the tabloids four decades of material, and CCTV's position is that his story deserves to be told accurately.

Volume VII joins every earlier volume of The Outlaw Archive in the CCTV Vault. Access requires only a free account with no credit card, and a free seven-page sampler is available without signing up.

THE COMPLETE HISTORY OF CLASSIC COUNTRY MUSIC

In early November, CCTV published *The Complete History of Classic Country Music: From a $50 Offer in Bristol to the Opry's Second Century*, the largest piece in its Journal to date. It traces the genre from the 1927 Bristol Sessions to the present day and

serves as the starting point for CCTV's growing library of artist profiles and history features, including deep dives on Johnny Cash, Waylon Jennings, Dolly Parton, George Jones and David Allan Coe.

THE CHARTER COLLECTION, DROP 001

CCTV also opened its online shop with **The Charter Collection**, a limited merchandise line. Drop 001 features the project's signature *"Classic Country. No Apologies."* mug. Shop sales help fund the free content CCTV publishes.

> *"The KWTX story told us people in Central Texas care about this music as much as we do. Everything we've put out since, from the George Jones Archive to the full history of the genre, comes from the same place: these artists and their stories deserve to be remembered, and remembered accurately."*
